ARTHUR VALENTIM

Full-Stack Developer

PERSONAL STATEMENT

I made an STMG (science, technology, and management) high school diploma with specialty in Marketing. I got my diploma with a level B1 in English. I have chosen to do studies in computer sciences because I like everything related to IT. I am hoping to continue studying computer sciences to get a bachelor's degree I and I hope to do a master's program.

WORK EXPERIENCE

Benoit Audition Company

02/01/2017 – 09/01/2017
1-week work placement (9th grade) in a firm who sell hearing aids and over objects related to the hearing. I helped the secretary with people who entered the shop and the technician who repairs the hearing aids.

Benoit Audition Head Office

12/06/2017 – 26/06/2017
2-week work placement (10th grade) in a firm who takes care of the orders placed by the company. I helped the accountant to verify if the invoices were correct, enter information about people who have bought hearing aids or had a relationship with the firm, with a software online. I had to sort invoices by the different companies.

Languages: French (native language), English (level B1), Portuguese (level B1)
